P/N VP6150 (black)
P/N VP6151 (white)

The Interlink Rechargeable Bluetooth Notebook Mouse from SMK-Link is a fast-tracking, high-resolution, optical mouse with Bluetooth connectivity designed for Bluetooth-enabled notebook systems.

Once the mouse is connected to the host computer it stays connected and the multiple RF channels ensures no interference. Offers up to 33-feet of reliable wireless transmission, the mouse is Earth-friendly with its in-use recharging capability via included USB cable. No more disposable batteries and never lose productivity again.

The compact and ambidextrous notebook mouse, designed for both right- and left-handed users, offers comfortable and ease of use whether you are traveling afar or just moving between your office, conference room and home.
