

NANO BLUETOOTH

CLASS 2 DONGLE

33 ft Range

Bluetooth v2.0

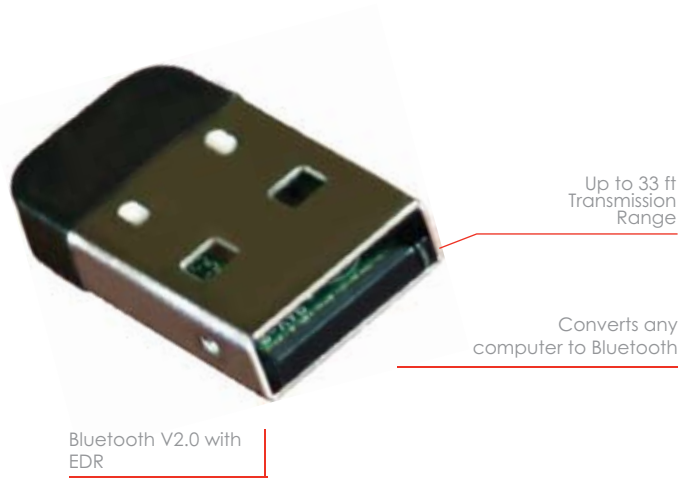

Miniature Size

NANO BLUETOOTH CLASS 2 DONGLE

- Upgrades any computer to Bluetooth
- Bluetooth v2.0 compliant with EDR
- One dongle connects up to 7 Bluetooth devices

P/N VP6494

The miniature Bluetooth dongle is the world's smallest Bluetooth dongle designed to upgrade a PC to Bluetooth-enabled system, capable of connecting up to 7 Bluetooth devices and transmitting data wirelessly up to 33 feet.

Embedded with the latest Bluetooth v2.0 module, the dongle offers EDR (Enhanced Data Rate) technology that improves the data transmission rate up to 3 times faster than the previous Bluetooth v1.0. In addition, EDR also allows up to 7 Bluetooth devices to operate simultaneously.

The miniature dongle design provides plug-in and leave-in convenience for great usability. Featuring a High-Speed USB physical connector, the dongle offers up to 40-times the transmission speed than the original USB. The VP6494 Nano Bluetooth Class 2 Dongle is the ultimate upgrade your PC deserves.
