

## PROJECTOR ERGO STAND

360° Rotation & Tilting

Ergonomic Design

Lead-Free

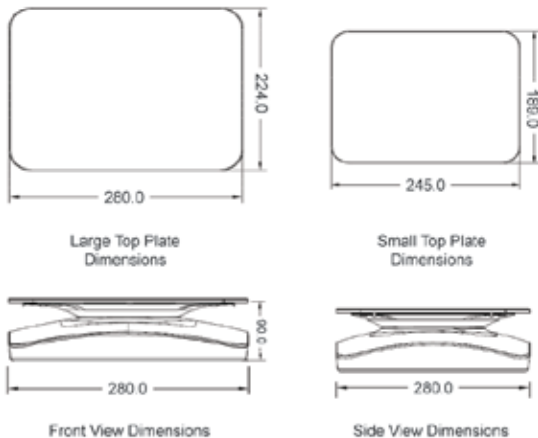

### PROJECTOR ERGO STAND

- Most practical way to adjust projected image for projectors up to 11" x 8.8" footprint
  - 360° rotation and tilting provide effortless image positioning
  - No assembly required; ready to use out of the box

P/N VP3600

360° Rotating  
and Tilting

The VP3600 Projector Ergo Stand offers a unique, simple, and effective solution that enables users to effortlessly adjust the projected images from their projector.

A compact one-piece base with 2 switchable top plates, this stand is perfect for projectors with up to 11.0" x 8.8" footprint. An anti-skid insert on the top plate ensures firm grip on the projector, and 4 attached footpads help stabilize the projector stand to your conference table.

Simply swivel and rotate the top plate of the stand to adjust the angle of the projected image. And tilt the top plate in a smooth rocking motion sets the correct height of the image. There's no easier way to present a perfect image from your projector, any time and every time. No assembly required.
