- Keyboard features 15 built-in one-touch access keys
  - High precision optical mouse
- Conveniently operate while recharging

P/N VP6150

The Interlink Rechargeable VersaPoint Desktop Suite from SMK-Link is a complete set of keyboard, mouse and receiver offering up to 33-foot of RF wireless transmission, ideal for classroom, conference room and any desktop operations.

Both keyboard and mouse are designed with Earth-friendly in-use recharging capability via the included USB cable. No more disposable batteries and never lose productivity again.

The full-size slim keyboard offers 15 multimedia hot keys and a volume control wheel to enhance productivity. The high-resolution, 5-button, ambidextrous full-size mouse is designed for comfortable use for both right- and left-handed users. The pre-synced devices offer true plug-and-play capability, instantly connect with the host computers without the need to install software driver for maximum convenience.
