

FOR IMMEDIATE RELEASE  
SMK-LINK ANNOUNCES THE NEW

## **“Must See” Products @ Macworld 2012**

*PadDock 10 Stand and Stereo System for iPad®,  
Bluetooth® Calculator Keypad and Gyration® Air Mouse Elite,  
New at Macworld 2012, Booth #1006*

**San Francisco, California, January 26th, 2012** --- SMK-Link Electronics Corporation, a subsidiary of SMK Electronics, one of the largest manufacturers of OEM remote controls in the world, today announced preview of three “must see” products at Macworld 2012. Highlighted products include SMK-Link’s innovative dock and stereo system PadDock 10 version 2 for iPad 2, Bluetooth Calculator Keypad, and the Gyration Air Mouse Elite. Designed to enhance productivity and overall user experience with Apple iPad and Mac computer products, these innovative SMK-Link peripherals will be featured this week at Macworld 2012, Booth #1006.

### **PadDock 10 Stand and Stereo System**

“SMK-Link’s new PadDock 10 Stand and Stereo System allows users to enjoy the iPad 2 as it was intended—to enhance the quality of their everyday lives,” stated John Blair, General Manager of Branded Products for SMK-Link Electronics. “With versions for both the original iPad and iPad 2, the PadDock cradles your iPad so it is ready to run apps in any screen orientation, ready to sync with iTunes and available to be your bedroom, kitchen, dorm room or office stereo system. And when you’re ready to go out, simply snap your iPad out of the PadDock cradle. It’s fully charged, synced with iTunes and ready to go.”

### **Bluetooth Calculator Keypad**

“Most OS X computers purchased over the past several years were supplied with Apple’s redesigned Wireless Keyboard,” continued Mr. Blair. “This elegant keyboard, which features a reduced-footprint design, provides however no numeric keypad. Whether you’re using an iMac, Mac Pro or MacBook, you’ll need an add-on peripheral keypad for extended data entry or spreadsheet use. Our new Bluetooth Wireless Keyboard integrates transparently with these Apple platforms-wirelessly connecting via Bluetooth to enhance user productivity with keypad entry and calculator capabilities.”

### **Gyration Air Mouse Elite**

“Mice have evolved beyond simple wired and wireless models to include true in-air gyroscopic capabilities,” continued Mr. Blair. “SMK-Link’s Gyration Air Mouse Elite combines the best of wireless and gyroscopic mouse functions to offer unprecedented control capabilities for desktop, mobile and presentation applications. Since acquiring Gyration in 2011, SMK-Link has been dedicated to the development and global marketing on this popular line of input devices. The Air Mouse Elite is one of the first of many new products being introduced by SMK-Link to expand the Gyration brand going forward.”
