## RemotePoint® Global *Presenter*

**New 2.4 GHz Wireless Remote Puts PowerPoint Control  
in the Hands of Presenters Worldwide!**

**Camarillo, California, June 9, 2004** -- Interlink Electronics, Inc. (Nasdaq:LINK), the world leader in the development of intuitive interface solutions and technologies for business and home applications, today unveiled RemotePoint Global Presenter—the PC industry's most advanced PowerPoint presentation remote control. Using the internationally accepted 2.4 GHz radio frequency wireless technology, Presenter will bring advanced PowerPoint control to presenters around the world.

*RemotePoint Global Presenter* features a polished metal case-top, icon-studded slide control keys, an integrated “mouse” joystick with patented ClickTrigger® click button and a 100' (30 meter) wireless range for controlling PowerPoint presentations

“The average corporate professional, who uses PowerPoint to make as many as 100 presentations per year, will find RemotePoint Global Presenter an effective way to enhance delivery, interaction and effectiveness,” says Jim Reisteter, Vice President of Sales and Marketing, Interlink Electronics, Inc.

“Presenter’s award-winning design and ease of operation will give the presenter that air of relaxed confidence that is crucial when standing at the head of the boardroom, or sitting down across the table from a new client.”

### ***About RemotePoint Global Presenter***

*RemotePoint Global Presenter* is an advanced presentation remote designed to control PowerPoint presentations. It features a polished-metal case design, icon-studded slide control

keys and a 360-degree cursor pointing stick with patented ClickTrigger click button for “mouse” operations. Presenter’s 2.4 GHz radio frequency wireless technology ensures that presentation slides and remote mouse commands will advance on command, every time, from up to 100’ feet (30 meters) away. For presentations that require that extra touch, assign Presenter’s “hot key” with any one of dozens of presentation effects from an optional software toolkit.

*RemotePoint Global Presenter* is a USB input device designed for Windows XP/2000/98 and Me systems. Installation is simple: Just plug in the USB receiver, install the batteries in the remote and go! It’s that simple. Available starting June 2004, *Global Presenter* has a manufacturer’s suggested list price (MSLP) of only \$169. Contact Interlink Electronics at (800) 340-1331, (805) 484-1331, or see RemotePoint Presenter online at <http://www.rppresenter.com>.
