Set-up and operating the stand

- Remove the projector stand from the packaging box
- The large platform converter is already snapped on to the stand.
 - If a compact size projector (footprint smaller than 9.6 x 7.4-inch) is used and a smaller platform is preferred, lift up the top plate to reveal the built-in small platform underneath.

- If a larger projector (footprint larger than 9.6 x 7.4-inch) is used or a larger platform is desired, snap the large platform converter on to the top of the projector stand to convert it to a larger platform.
- Place the projector on top of the stand. Make sure the feet of the projector are placed firmly on the top plate.
- Adjust the projector stand top plate to ensure best projected image result.
 - Use both hands, grab on the 2 opposite edges of the projector stand top plate with the projector on top.
 - Rotate the top plate to find the correct angle of the projected image.
 - Tilt the top plate to adjust the height of the projected image.
- Always carry the projector stand by holding on to the bottom of the stand. Do not grab the top plate as the projector stand may separate from the large platform adapter and fall off.
