
Award-Winning Powerpoint® Remote Controls Receive Wide Distribution In The U.K.

***RemotePoint® Navigator and Global Presenter* from Interlink Electronics
Now Available in the U.K. from Insight, DABS, Inmac and Misco**

Camarillo, CA, March 6, 2006, Interlink Electronics, Inc. (Nasdaq:LINKE), the world leader in the development of intuitive interface solutions and technologies for business and home applications, today announced wide distribution in the U.K. for two of its most popular Powerpoint presentation remote control products. *RemotePoint Navigator* and *RemotePoint Global Presenter*, now widely distributed throughout the United Kingdom, are available from [Insight](#), [DABS](#), [Micro Warehouse Inmac](#) and [Misco](#) online, as well as from distributors [Maverick](#) and [Steljes](#).

“Voted by PC Magazine, Laptop Magazine and Presentation Magazine in the U.S. as best products in their class, these two remote controls give occasional presenters and professionals alike a proven way to increase the power of their Powerpoint presentations,” says Jim Reisteter, Vice President of Sales and Marketing, Interlink Electronics, Inc.

“Both *RemotePoint Navigator* and *Global Presenter* are simple to install, easy to use and reliable. Their 2.4 GHz RF wireless technology ensures that, no matter where you are standing or which way you are facing during your presentation, your slides will advance on queue, every time.”

About *RemotePoint Navigator & Global Presenter*

RemotePoint Navigator is the industry's most successful presentation remote control. Its ergonomic shape rests comfortably in the hand while its large icon-studded arrow keys advance, reverse or hide your slides with just a click. *Navigator* is a USB device designed for both IBM PCs (running Windows XP/2000/98/ Me) and Apple® Macs (G3 and G4 platforms running OS 8.x, 9.x and X). With a 15 meter RF wireless range and

a Class II laser pointer, *RemotePoint Navigator* has a manufacturer's suggested list price of £119 (excluding VAT). More information is available at www.rpnav.com.

RemotePoint Global Presenter combines all the great features of the Navigator with a mini-joystick mouse controller, a patented ClickTrigger® primary mouse click key, a user-assignable function key and a software toolkit of presentation effects. *Global Presenter* is a USB input device designed for Windows XP/2000/98/Me systems only. It features a 30 meter RF wireless range and a manufacturer's suggested list price of £139 (excluding VAT). More information on RemotePoint Global Presenter is available at <http://www.rppresenter.com/globalpresenter.html>.
